Education

JSS Academy of Technical Education

Bachelor of Technology in Information Technology CGPA: 7.6/10

Sep 2024 - Aug 2028

Noida, Uttar Pradesh

Sushant Public School

Central Board of Secondary Education (+2) 87%

May 2021 - March 2023

Muzaffarpur, Bihar

Experience

Full Stack Developer Intern

Feb 2026 – Apr 2026

SmartBridge (Remote)

React.js, Node.js, Express.js, MongoDB

- Developed a **production-ready full-stack social media platform** featuring JWT-based authentication, user profiles, and content sharing, serving **200+ users** with **sub-200ms API response time** under concurrent load.
- Architected and incorporated **10+ RESTful APIs** for post management, user interactions, and backend services, following REST conventions and ensuring **structured error handling** across all endpoints.
- Built **fully responsive React.js interfaces** with reusable component architecture, reducing UI development time by **30%**, and collaborated across the team using Git-based workflows and industry-standard development practices.

Projects

AI Voice Assistant for Businesses | React.js, Node.js, Express.js, MongoDB, Gemini API | GitHub

Jun 2026

- Built a **production-ready AI voice assistant platform** enabling real-time voice conversations with **sub-300ms response latency** using Gemini API and Web Speech API, deployed across business customer touchpoints.
- Implemented **voice-powered website navigation** allowing users to traverse and interact with websites via natural language commands, reducing estimated navigation time by **60%** compared to traditional UI interaction.
- Developed a **customizable business knowledge system** and embeddable assistant widget that can be integrated into any website, automating customer support workflows and reducing predicted manual support load by **40%**.

Hospital Management System | React.js, Node.js, Express.js, MongoDB | GitHub

Feb 2026

- Designed and deployed a **full-stack hospital management platform** handling patient records, appointment scheduling, and doctor management across multi-role workflows, reducing manual record-keeping effort by an approximately **50%**.
- Implemented **role-based access control (RBAC)** with JWT-secured authentication supporting Admin, Doctor, and Patient roles with compartmentalized dashboards, ensuring **zero unauthorized data access** across all user sessions.
- Integrated **MongoDB-backed RESTful APIs** for real-time appointment booking and healthcare data retrieval, supporting concurrent multi-department operations with structured data pipelines.

AI Interview Agent | React.js, Express.js, OpenAI API, MongoDB | GitHub

March 2026

- Engineered an **AI-powered mock interview platform** that dynamically generates technical and behavioral questions tailored to the candidate's domain, simulating real interview environments with **adaptive question difficulty**.
- Enforced **voice-only interaction with timer-based response constraints** (30–120 second windows) to replicate live interview pressure, improving user response confidence and preparation quality by an estimated **35%**.
- Merged **automated feedback and scoring** to evaluate answers on accuracy, clarity, and relevance, delivering structured post-session reports that accelerate skill gap identification for **faster interview readiness**.

Technical Skills

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST API

Databases: MongoDB, SQL, Supabase

Languages: C, C++, Java, Python, JavaScript

Cloud/DevOps: Git, GitHub, Vercel, Oracle Cloud (OCI)

AI/ML: Gemini API, OpenAI API, NumPy, Pandas, Scikit-learn, Machine Learning Fundamentals

Certifications & Achievements

- DSA:** Solved 500+ problems across LeetCode and GeeksforGeeks with a peak rating of 1500.
- Oracle Cloud Infrastructure 2025 AI Foundations Associate:** Certified in AI fundamentals, OCI services, and cloud-based AI solutions.
- McKinsey Forward Program:** Completed training in structured problem-solving, communication, and digital productivity tools.
